

ALL SAINTS UPTON PROGRESSION GRID COMPUTING

EYFS	Generic skills	<p>Most children will:</p> <ul style="list-style-type: none"> • be aware that pressing buttons will make a device respond e.g. remote control toy • use the mouse and the keyboard to explore programs • be aware that moving the mouse moves the pointer on the screen • be aware of the effect of pressing the mouse buttons • have experience of a range of ICT equipment and software • talk about what they are doing with ICT use appropriate ICT
	Graphics and digital video	<p>Most children will:</p> <ul style="list-style-type: none"> • experiment with an art package trying different tools and effects, as one of a range of media available • begin to be use an art package as medium to convey their ideas, as one of a range of media available • with support, use a digital camera or digital video camera to take pictures be aware that digital pictures and video can be displayed on a computer screen
	Sound	<p>Most children will:</p> <ul style="list-style-type: none"> • with support, use cassette recorders / CD players to listen to pre-recorded sound • with support, use cassette recorders / Dictaphones/sound buttons to record and playback sounds e.g. own voice, others voices experiment with music software
	Word Processing and email	<p>Most children will:</p> <ul style="list-style-type: none"> • use the keyboard to enter letters strings (play writing) • begin to use the space bar to break letter strings into groups of letters • use the Back Space key to delete use a wordbank or word list to enter text e.g. to match with pictures
	Control and Logo	<p>Most children will:</p> <ul style="list-style-type: none"> • be aware that many everyday devices respond to commands • learn to switch on a programmable toy to activate movement

		<ul style="list-style-type: none"> • begin to follow simple instructions e.g. playing at robots, country dancing (pre-Logo activities) • play with remote control toys • play with programmable robots be aware that pressing buttons makes the toy or robot respond
	Research	Most children will: <ul style="list-style-type: none"> • explore CD ROM resources e.g. Talking Books
	Data handling	Most children will: <ul style="list-style-type: none"> • do practical sorting activities and discuss sorting criteria begin to develop simple classification skills
YEAR 1	Generic skills	Most children will: <ul style="list-style-type: none"> • be able to print work using the Print icon • use both hands on the keyboard • load programs with support • know that work can be saved and retrieved • save work with support • retrieve work with support • have experience of a range of ICT equipment and software • talk about what they are doing with ICT
	Graphics and digital video	Most children will: <ul style="list-style-type: none"> • be able to use an art package as medium to convey their ideas, as one of a range of media available • be aware of a wider range of tools in the art package • use a digital camera or digital video camera to take pictures • be aware that digital pictures and video can be saved on a computer
	Sound	Most children will: <ul style="list-style-type: none"> • use cassette recorders / CD players independently to listen to pre-recorded sound • use cassette recorders / dictaphones to record and playback sounds e.g. own voice, others voices • know that sound can be recorded and played back • with support, use music software to experiment, create and play their own compositions

	Multimedia	Most children will: <ul style="list-style-type: none"> • with support, add captions or sound to digital pictures or video
	Word Processing & Email	Most children will: <ul style="list-style-type: none"> • put text on screen • use upper and lower case • use the space bar • use the Return key • use the Shift key to make a capital letter • use word lists to enter text • with support, print their work using the Print icon
	Control and Logo	Most children will: <ul style="list-style-type: none"> • know that many everyday devices respond to commands • follow simple instructions e.g. playing at robots, country dancing (pre-Logo activities) • control a programmable robot in linear scenarios, using Forward and Backward commands (arrows) and the Go command • use trial and error to create a sequence of instructions to a move a programmable robot
	Research	Most children will: <ul style="list-style-type: none"> • with support, use CD ROMs to find information e.g. from a CD ROM encyclopaedia
	Data Handling	Most children will: <ul style="list-style-type: none"> • develop simple classification skills based on practical sorting activities • with support, use simple data plotting/ graphing programs to produce pictograms and other simple graphs
YEAR 2	Generic Skills	Most children will: <ul style="list-style-type: none"> • use appropriate ICT vocabulary • load programs independently • save work independently • retrieve work independently • plan what they are going to do • make simple modifications to their work (edit) • practise keyboard skills using both hands, try to use more than two fingers, and try to use the thumb on the spacebar. • have experience of a range of ICT equipment and software describe their work and how they have used ICT

	Graphics and digital video	<p>Most children will:</p> <ul style="list-style-type: none"> • be able to use an art package as an alternative medium • use a digital camera or digital video camera to take appropriate pictures or video for a specific purpose • add captions or sound to digital pictures or video with support, be able to do simple manipulation of images using an art package or other software e.g. the digital camera's software
	Sound	<p>Most children will:</p> <ul style="list-style-type: none"> • use cassette recorders / Dictaphones independently to record and playback sounds e.g. own voice, others voices • be aware that sound can be recorded on the computer as a sound file • use music software to experiment, create and play their own compositions with support, evaluate and modify (edit) their own compositions
	Multimedia	<p>Most children will:</p> <ul style="list-style-type: none"> • with support, use a storyboard to do simple editing of a sequence of digital pictures or video e.g. change sequence, add transitions
	Word Processing and email	<p>Most children will:</p> <ul style="list-style-type: none"> • know that text can be saved and retrieved • change the font style • change the font size • change the font colour • print their work using the Print icon • use the cursor (arrow) keys for simple on screen editing • with support, import graphics and add text with support, write and send a short email e.g. to Santa
	Control & Logo	<p>Most children will:</p> <ul style="list-style-type: none"> • control a programmable robot, with a purpose (defined by either teacher or child) • understand that, once programmed a programmable robot can repeat the same instructions • plan and create a sequence of instructions to a move a programmable robot
	Research	<p>Most children will:</p> <ul style="list-style-type: none"> • use CD ROMs to find information e.g. from a CD ROM encyclopaedia • with support (Favourites file, hyperlinks set up by the teacher) use the Internet to find information for a topic

	Data Handling	<p>Most children will:</p> <ul style="list-style-type: none"> • independently plot data as a pictogram, block chart or bar graph • be aware that graph types can be changed • interpret the graphs - discuss the graphs and answer simple questions use the search tools in a prepared database to answer simple questions.
YEAR 3	Generic Skills	<p>• Most children will:</p> <ul style="list-style-type: none"> • be aware that work can be saved in different places e.g. network, writeable CD ROM, PenDrive • be aware of folders and, with support, create and name new folders • print work using the drop down menu • use Print Preview • make changes to their work (edit) • select items and use cut, copy and paste as necessary • have experience of a range of ICT equipment and software • describe their work and how they have used ICT • annotate their work samples using prompts • use appropriate ICT vocabulary
	Graphics and digital video	<p>Most children will:</p> <ul style="list-style-type: none"> • be able to use a wider range of tools within an art package as necessary • do simple manipulation of images using an art package or other software e.g. the digital camera's software • use a digital camera or digital video camera to take appropriate pictures or video for a specific purpose
	Sound	<p>Most children will:</p> <ul style="list-style-type: none"> • continue to use cassette recorders / Dictaphones independently to record and playback sounds e.g. own voice, others voices • with support, be able to record sound on the computer and be able to use the sound files in other applications • use music software to plan, create and play their own compositions • evaluate and modify (edit) their own compositions • use a range of musical instruments in their compositions

	Multimedia	<p>Most children will:</p> <ul style="list-style-type: none"> • use a storyboard to edit a sequence of digital pictures or video e.g. change sequence, add transitions, effects, and sound • with support, be able to create a simple presentation or digital film e.g. to show year 2 pupils what KS2 is like
	Word Processing and email	<p>Most children will:</p> <ul style="list-style-type: none"> • select text and change the font style, size and colour • select text and use Bold and Underline icons • use the cursor (arrow) keys for simple on screen editing • use the scroll bars to view different parts of the document justify / align text • import graphics and add text • print using the menu • use print preview • know that email exists • with support, logon to an email account • with support, logout from an email account • compose and send email e.g. to a prearranged partner in another class in the school or in another school • begin to be aware
	Control and Logo	<p>Most children will:</p> <ul style="list-style-type: none"> • plan, write, evaluate, and edit a sequence of instructions to a move a programmable robot • attach a pen to programmable robot to record movements e.g. shapes • be aware that Logo is a computer language • be aware that Logo is a computer language • plan, write, evaluate, and edit a simple Logo procedure for a specific purpose (a set of Logo instructions that can be saved. retrieved, and edited) • use the Repeat command e.g. to create simple shapes
	Datalogging	<p>Most children will:</p> <ul style="list-style-type: none"> • be aware that digital devices e.g. thermometers can be used to measure external changes e.g. temperature • with support, use a temperature sensor to record changes in temperature e.g. as part of a science experiment

	Research	<p>Most children will:</p> <ul style="list-style-type: none"> • with support, use simple search tools to find information on CD ROMs and the Internet e.g. child friendly Search Engine • use a range of sources to find information e.g. CD ROMs, the Internet • begin to be aware of Internet safety rules
	Data Handling	<p>Most children will:</p> <ul style="list-style-type: none"> • collect and enter data into a prepared database structure • use the search tools to answer simple questions relevant to an investigation • sort the data • learn how to produce graphs from the data • learn to amend errors • know that libraries store data about all books and readers on computer and compare this with school's library system
	Spreadsheets	<p>Most children will:</p> <ul style="list-style-type: none"> • with support, use a spreadsheet to record data and produce graphs • with support, enter data in a prepared spreadsheet • with support, select data to produce a graph
YEAR 4	Generic Skills	<p>Most children will:</p> <ul style="list-style-type: none"> • with support, be able to choose an appropriate program to perform a task • plan what they are going to do and evaluate the results • understand that work can be saved in different places e.g. network, writeable CD ROM, PenDrive • understand the use of folders and be able to create and name new folders • understand and use the hierarchical file system • consolidate keyboard skills -possibly using typing tutor software • have experience of a range of ICT equipment and software • describe their work and explain how and why they have used ICT • annotate their work samples using prompts • use appropriate ICT vocabulary

	Graphics and digital video	<p>Most children will:</p> <ul style="list-style-type: none"> • use a wider range of tools within an art package as necessary • manipulate images using an art package or other software continue to use a digital camera or digital video camera to take appropriate pictures or video for a specific purpose
	Sound	<p>Most children will:</p> <ul style="list-style-type: none"> • continue to use cassette recorders / Dictaphones independently to record and playback sounds e.g. own voice, others voices • be able to record and edit sound on the computer • be able to use the sound files in other applications use more sophisticated music software to plan, create, edit and play their own compositions
	Multimedia	<p>Most children will:</p> <ul style="list-style-type: none"> • be able to design and create a presentation or digital film e.g. to show other pupils what they did on a school trip • begin to evaluate the suitability of the presentation for the given audience • with support, make changes to the presentation to make it more suitable for the audience
	Word Processing and email	<p>Most children will:</p> <ul style="list-style-type: none"> • import graphics and use the Picture Toolbar to choose the text wrapping • use the spell checker • use Find, search and replace if appropriate • use Page Setup to choose Portrait or Landscape page as appropriate • learn how to insert and use a simple table • use the Zoom menu to view the whole page • know that mail can be sent all over the world electronically via computers (email) • logon to an email account • logout from an email account • use email as a communication tool e.g. to exchange information with pupils in another school as part local study work • with support, send a picture or document as an attachment be aware of email safety rules
	Control and Logo	<p>Most children will:</p> <ul style="list-style-type: none"> • begin to experiment with on-screen control software to control outputs • experiment with onscreen control software to control outputs • be aware that the computer can be used to control external devices (outputs) e.g. lights, buzzers, motors and that these can be simulated by pictures on screen

		<ul style="list-style-type: none"> • with support, use onscreen control software to plan, create and run a simple set of instructions to make e.g. a light flash • evaluate and edit the instructions • test and modify Logo procedure. • predict the outcome of a Logo procedure • incorporate Pen Up and Pen Down commands
	Datalogging	<p>Most children will:</p> <ul style="list-style-type: none"> • use a temperature sensor to record and display the changes in temperature e.g. as ice melts • know that the computer can be used to display the results from either a remote sensing device or a sensing device attached to the computer
	Research	<p>Most children will:</p> <ul style="list-style-type: none"> • use simple search tools to find information on CD ROMs and the Internet • be aware of Internet safety rules
	Data Handling	<p>Most children will:</p> <ul style="list-style-type: none"> • begin to identify data handling opportunities • prepare a data collection form • identify fields • create a datafile and enter data • use the database to carry out an investigation • present data in different forms – graphs, tables • amend errors
	Spreadsheets	<p>Most children will:</p> <ul style="list-style-type: none"> • use a spreadsheet to record data and produce graphs • enter data in a prepared spreadsheet • select data to produce a graph • use a spreadsheet to explore number patterns e.g. in a hundred square, multiplication table
YEAR 5	Generic Skills	<p>Most children will:</p> <ul style="list-style-type: none"> • be able to choose an appropriate program to perform a task • be able to combine and refine information from various sources. • interpret and question the plausibility of information.

		<ul style="list-style-type: none"> • have experience of a range of ICT equipment and software • describe and discuss their work and explain how and why they have used ICT • annotate their work samples using prompt questions • use appropriate ICT vocabulary
	Graphics and digital video	<p>Most children will:</p> <ul style="list-style-type: none"> • use a wider range of tools within an art package as necessary • continue to manipulate images using an art package or other software • begin to evaluate when it is appropriate to use an art package and when another medium would be more suitable • continue to use a digital camera or digital video camera to take appropriate pictures or video for a specific purpose
	Sound	<p>Most children will:</p> <ul style="list-style-type: none"> • continue to use cassette recorders / Dictaphones/sound buttons as appropriate • continue to use the sound files in other applications • use more sophisticated music software to plan, create, evaluate, edit and play their own compositions
	Multimedia	<p>Most children will:</p> <ul style="list-style-type: none"> • design and create a presentation or digital film e.g. to show other pupils what they did on a school trip • evaluate the suitability of the presentation for the given audience • make changes to the presentation to make it more suitable for the audience
	Word Processing and email	<p>Most children will:</p> <ul style="list-style-type: none"> • use and practise their word processing skills in a range of contexts • use email as a communication tool to collaborate with other pupils e.g. to work together on a project • send a picture or document as an attachment • know that files can be send via email as attachments • know that email can be sent or copied to more than one person • know that an email can be forwarded to another person • begin to be aware that computer viruses can be sent via email • be aware of email safety rules

	Control and Logo	<p>Most children will:</p> <ul style="list-style-type: none"> • use on-screen control software to plan, create and run a set of instructions to make e.g. to change the traffic lights • evaluate and edit the set of instructions to make a more efficient system • predict the outcome of a control procedure • be aware of control applications in everyday life e.g. automatic doors, robots in car factories, automatic security lights • create patterns using repeated simple procedures • test, modify and improve Logo patterns • explore the effect of changing a variable within a procedure • predict the effect of changing a variable
	Datalogging	<p>Most children will:</p> <ul style="list-style-type: none"> • be aware of other sensors that can be used e.g. light sensor, sound sensor, pulse monitor • be able to interpret the data from the sensing device • use sensing devices e.g. in their science experiments
	Research	<p>Most children will:</p> <ul style="list-style-type: none"> • with support, use a more complex search engine to find information on CD ROMs and the Internet • use AND and OR in their searches • with support, check the accuracy of information • begin to be aware of privacy and other issues related to using the Internet
	Data Handling	<p>Most children will:</p> <ul style="list-style-type: none"> • carry out more complex searches on more complex prepared databases e.g. be able to answer complex questions such as – Did all the minibeasts in a particular habitat have the same diet? • use AND and OR in their searches • identify data handling opportunities, set up a datafile and enter data • check for validity and amend errors • use the datafile to answer complex questions
	Spreadsheets	<p>Most children will:</p> <ul style="list-style-type: none"> • be able to set up a spreadsheet with appropriate headings • be able to use a simple formula e.g. SUM • use a spreadsheet to investigate e.g. cost of foods / drinks Which is the best value drink?

YEAR 6		
	Generic Skills	<p>Most children will:</p> <ul style="list-style-type: none"> • be able to choose and combine the use of appropriate ICT tools to complete a task • be able to critical evaluate the fitness for purpose of work as it progresses • have experience of a range of ICT equipment and software • describe and discuss their work and explain how and why they have used ICT • annotate their work samples using prompt questions • use appropriate ICT vocabulary
	Graphics and digital video	<p>Most children will:</p> <ul style="list-style-type: none"> • use a wider range of tools within an art package as necessary • continue to manipulate images using an art package or other software • know when it is appropriate to use an art package and when another medium would be more suitable • continue to use a digital camera or digital video camera to take appropriate pictures or video for a specific purpose
	Sound	<p>Most children will:</p> <ul style="list-style-type: none"> • continue to use cassette recorders / Dictaphones/sound buttons as appropriate • continue to use the sound files in other applications • continue to use more sophisticate music software to plan, create, evaluate, edit and play their own compositions
	Multimedia	<p>Most children will:</p> <ul style="list-style-type: none"> • select and use a range of software and hardware tools to produce a presentation or digital film for a specific audience e.g. present an account of their residential trip to their peers • create hyperlinks for resources made or found. • modify the presentation to make it more suitable for a different audience e.g. parents
	Word Processing and email	<p>Most children will:</p> <ul style="list-style-type: none"> • use and practise their word-processing skills in a range of contexts • use email as a communication tool to collaborate with other pupils • be aware that computer viruses can be sent via email • be aware of email safety rules
	Control and Logo	<p>Most children will:</p> <ul style="list-style-type: none"> • use on-screen control software to plan, create and run a more complex set of instructions

	<ul style="list-style-type: none"> • use information from a sensor (input) to initiate parts of the control program • plan and create a control system to answer a task • know when it would be appropriate to use a control system • create more complex patterns using repeated simple procedures
Datalogging	<p>Most children will:</p> <ul style="list-style-type: none"> • know when it would be appropriate to use a sensing device e.g. in a science experiment • be able to use a range of sensors as appropriate
Research	<p>Most children will:</p> <ul style="list-style-type: none"> • use a more complex search engine to find information on CD ROMs and the Internet • check the accuracy of information • be aware of privacy and other issues related to using the Internet
Data Handling	<p>Most children will:</p> <ul style="list-style-type: none"> • use a more complex database to explore patterns and relationships in data e.g. In a minibeasts database - Is there a relationship between habitat and diet? • independently set up and use a datafile to carry out an investigation • amend and delete data from records • use editing tools to alter the design of a graph • organise, refine and present information appropriate to the audience
Spreadsheets	<p>Most children will:</p> <ul style="list-style-type: none"> • be able to use formulae and functions in a spreadsheet • alter the format of a spreadsheet • change data to satisfy 'What if' queries • use a spreadsheet to solve simple problems e.g. the relationship between the perimeter and area of a quadrilateral
